Stilt Fishing -

Stilt Fishing is one of the most interesting traditional fishing methods of Sri Lanka. Records indicate that it came into being just after World War II. This mode of fishing was more widely used all along the coast until the tsunami in 2004 which caused such activities to cease temporarily until recent years. The beautiful sight of fishermen perched branched poles as they fish skillfully during dawn, noon and dusk; can now be commonly along the southern coast

Though stilt fishermen make the activity seem easy and comfortable; stilt fishing requires much skill and balance. A vertical pole with an attached crossbar is embedded into the sea floor among the shallows, or on a riverbed. The crossbar allows the fishermen to be seated a couple of meters above the water causing minimal shadows on the water and hence little to no disturbance amongst the sea life. The stilt fishermen then use a rod from this precarious position to bring in a good catch of spotted herrings and small mackerels from the comparative shallows of the sea or from the river. They collect the catch in a bag tied to the pole or to their waist.

Experience-specific conditions

Madu River: USD 5 per adult is the group rate. The saved private-boat reference is USD 30 per boat for up to six passengers; use the boat option instead of the group per-person amount and confirm inclusions. Fish massage is listed separately at USD 5 per adult.

Safari and whale-watching rates are based on a minimum of two passengers where stated in the master. Confirm whether jeep, guide, taxes and park components are included before making a final total. Train tickets and all optional activities require availability confirmation.

Zero-value records without a Free Entrance label are shown as On request. The chart uses current master references rather than older package-specific entrance amounts, which can differ. No B2B/B2C selling markup has been added to these entrance references.
